

**headsets**

**ProVoice Plus**

Incorporating both VoiceTube and noise-cancelling microphone technology the new ProVoice Plus range offers the ultimate in user comfort and communication clarity. Finished in a distinctive brushed metal effect, this model oozes contemporary style.

Spare coloured VoiceTubes are available in Rose, Blue or Black.

Available in both Monaural and Binaural Styles and in standard or Arctic specification (for Meridian/Mitel)

**VoiceBand - Put some colour back into your office**

The number one headset from Voice Active featuring noise cancellation technology, the VoiceBand is the best choice for people looking for comfort, performance and reliability.

Presented in a metallic Silver, this model is the perfect way to stand out from the office crowd.

Available in both Monaural and Binaural Styles and in standard or Arctic specification (for Meridian/Mitel)

**NOW AVAILABLE WITH INDUCTIVE LOOP RECEIVER**

**Elixia - 3 Headset styles in one box**

Weighing in at only 60 grams, the Voice Active Elixia headset is one of the world lightest and most snug fitting headsets available. It's 3 in 1 functionality means it is the ideal choice should you be buying for others (who knows how your colleague will want to wear their headset) or those simply looking for lightweight, elegant performance.

Available in both standard and Arctic specification (for Meridian/Mitel)

**Omega - Built to perform, designed to impress**

This modern and chic headset offers superb design and user wearability. Featuring noise cancelling microphone technology, the Omega headset is a highly durable product offering optimum audio performance.

Available in both Monaural and Binaural Styles and in standard or Arctic specification (for Meridian/Mitel)

**Hygiene notice:** Spare Ear Cushions and Microphone Windshields are available for all headset models. Call for details.

**£5.00 minimum buy back on you old headset. Call 0800 019 0234**

# Amplifiers, Adaptors & Telephones

**GLA-501** - A fully featured headset amplifier

Required to use a headset on a telephone that does not allow direct headset use.

Features include audio level controls, microphone mute with indicator, handset/headset change-over switch and a headset storage stand. Batteries are included.

**VoiceSwitch** - Handset /Headset selector switch

Ideal for use on telephones with only one handset or headset port and that doesn't require an amplifier.

Other features include a headset microphone mute button and compatibility switches to match your telephone output.

**USB Headset Adaptor** - Plug and play USB soundcard adaptor

Connects any Voice Active headset to your USB port with plug and play simplicity (min W98SE).

Features; inline volume control, mic mute with indicator and 3.5mm jack speaker output.

## Cables & Connectors - For connection to the majority of telephone systems

D Cable - Fits the majority of headset telephones and system handsets

C Cable - Specially wired for the Cisco IP series and Callmaster V

2.5m JP cable - A 2.5mm Jack plug for dect phones and Panasonic series etc

DX Cable - for those older Siemens systems

Y Cable - A Three way QD cable ideal for training, complete with a mic mute and volume control for the trainer.

## VoicePhone

A keypad telephone and headset package with a difference.

This neat combination features a keypad telephone of only 14 x 8 cm in size, complete with a colour coded VoiceBand headset.

This combo is ideal for those with limited desk space or just those with no requirement for a conventional telephone handset.

**Voice Active** is here to help you make the right headset choice for your work environment.

We don't sell through middlemen, we are therefore able to offer you, the end-user, the best advice and best price in addition to:

- Free 14 day trial (to new customers)
- Free support
- 2 year warranty
- Foam and Leatherette ear pads
- Free Headset storage bag
- £5.00 trade in for your old headset

## TEL Packages

Bringing together the Berkshire range of professional business telephones with our popular range of headsets, we have created the perfect solution for those wishing to upgrade their telephone to a headset compatible unit.

There are four different models to choose from, basic to fully featured - the 200, 400, 600 and 800.

All models are supplied with both BT and CAT5/RJ45 line cords.

**Not only** can we offer you a fantastic deal with your headset requirements, but, as a key player within the Telecom industry we are able to source all makes and models of telephones from basic to system specific. Including:

- Avaya
- BT/Meridian/Nortel
- Panasonic
